

# Eksternt filter for aspirasjonsrør

**Honeywell**

- Tilpasset 25mm rør
- Godkjent filter iht. EN 54.25 for aspirasjonssystemer
- Kan benyttes med alle aspirasjonsdetektorer
- Beskytter detektoren i områder med mye luftforurensing
- Effektivt filter med beskjeden størrelse
- Gir lengre service intervaller

## Introduction

The Xtralis In-Line Filter provides Xtralis customers the ability to address a wide array of harsh environments with high levels of airborne contaminants in a simple and cost-effective manner.

## Description

Unlike other in-line filtration solutions available on the market today, the Xtralis In-Line Filter provides superior performance in terms of improving detector longevity and reducing maintenance frequency.

Having tapered inlet and outlet means the Xtralis In-Line Filter is easily fitted in line with the sampling pipe without the need for any additional pipe fittings hence reducing the cost of installation. Filter elements can be easily replaced without having to remove the filter from the pipe network hence simplifying maintenance.

Its elegant design blends in seamlessly into the installation where up to four can be installed side-by-side on Xtralis multi-pipe installations.

## How it works

The arrows on the Xtralis In-Line Filter cover indicate the direction of airflow aiding ease of correct mounting. As the airflow enters the filter housing it impinges on the filter elements which are positioned at a certain angle within the filter housing. This arrangement maximizes the filter element surface area subjected to the airflow hence promoting a longer filter life.

## Målskisse

## Tekniske data

Artikkelnummer komplett filter	251596
Artikkelnummer 4 reserve filter	251597
Produsent betegnelser	Housing: VSP-850-G. Filters: VSP-855-4
Beskyttelsesgrad	IP55 (est.)
Vekt	125
Dim. LxHxD mm	206 x 59 x 33
Rørtilkobling	25mm rør, utv. diameter
Temperatur 0 <sup>c</sup>	-20 til +60
Materiale	PC-ABS
Farge	Grå
Standard	EN 54.25
